Welcome & Prayer

Chris Morris- Maintenance

The railing outside the parish offices was fixed since our last meeting. One thing Chris is looking into is whether or not it makes sense to have a lock installed on the front of the school that can be used in the event the power goes out so we can still get into the building. We asked Chris to look into if we could just put the front locks on the backup generator so we would not have to install a lock. Chris also brought to our attention that we may want to look at covering the kindergarten exit with a permanent structure, which we have talked about in the past. This would prevent us from having to remove snow down the stairwell as well as any possible water issues that may arise. Lastly he informed us that the tops of the columns on the church have been repaired and dry space is ready to move forward with capping them off. We discussed a few options they quoted us on this and Brian will e-mail the group to see if everybody's ready to move forward once we get a few bits of information.

Tracy Huk- Business Manager

Absent

Old Business-

Chris shared with us a few estimates he got around refinishing the pews in the church. One estimate was for \$137,000 which would finish all of the wood for each of the pews, and the other estimate was for \$96,000 but would only refinish the backs and the seats, not including the legs. We as a group agreed that the \$137,000 option would be better. he is still working on getting estimates for the repadding of the kneelers.

New Business-
